
Haul out & Launch

Posted by Star1pup - 2006/05/02 10:46

I know fall is a long time away, but what would be the best way to have the East Marina haul out, winterize and deliver to my drive and then launch in the spring? I'd like to be able to hit the early crappie fishing next year.

Just thought I'd start this thread since some of us are serious anglers.
